# The nearby area

There are a lot of places worth visiting in the area of those two farms:

# Nowica

The farm is only 7 kilometers from the village of Nowica near Magura Małastowska. What makes this village so unique is its location, original old buildings, a total lack of telephone connection or any trade infrastructure. You will feel there like in a real open air museum pulled away from the hustle and bustle of civilization. In May there are organized one of its kind theatrical meetings “Innowica”.

# Magura Ski Station

“A piece of heaven” is a perfect starting point for skiers. The Magura Ski station is 15 kilometers from there. It is equipped with a chair lift and a 1400-meter-long slope. The slope is lit, artificially snow-covered and groomed. The station has a parking lot, equipment rent and catering facilities.

# The Hucul Pony Stud Farm in Regietów

The Hucul Pony Stud Farm in Regietów, which is only 20 kilometers from the farm is the biggest in the country. It offers many attractions for the horse riding enthusiasts, such as participating in horse rides along the marked riding trails or traditional sleigh rides. Horses from the stud took part in many films, for example “Ogniem i mieczem” (With fire and with sword”).

# The Klimkówka Lake

Klimkówka is an artificial lake created as a result of the accumulation of the Ropa river by the dam. Part of the Klimkówka reservoir and the dam is in the village of Łosie. The amazing landscapes make Klimkówka Lake a very attractive place. There are a few places where you can hire water equipment, campsites, parking places and catering facilities.

# Wysowa Zdrój

It takes 20 kilometres to relax in Wysowa Zdrój: a well-maintained and beautifully situated spa, known for its mineral therapeutic waters. One of the most favorite places for a walk in Wysowa is its beautiful park, where you can find an amphitheatre and the stylish mineral water pump room reconstructed in 2005. The most recent attraction is a water park.
