GORLICE DISTRICT

# AGROTOURISM IN OUR REGION

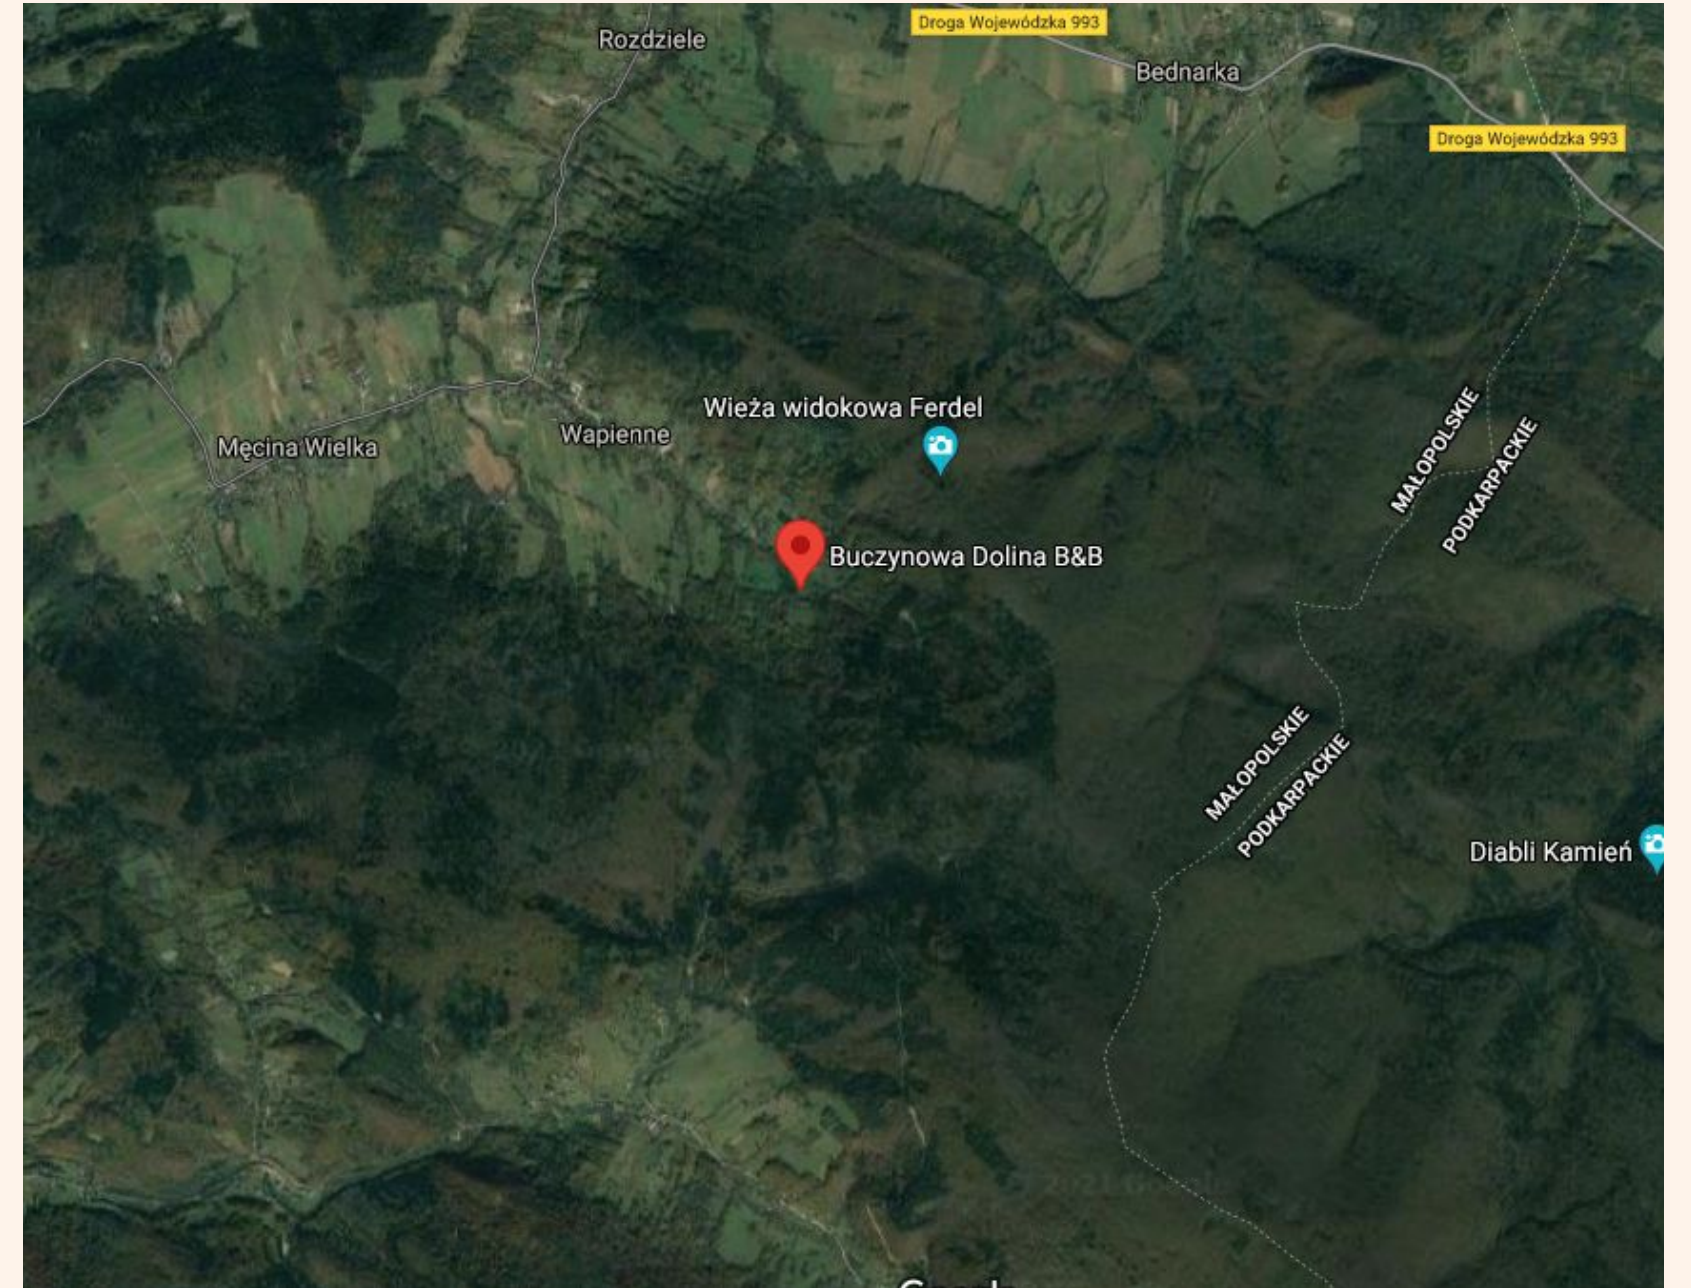

This type of recreation is very popular in our country. Many people living in cities prefer to go to the countryside to experience a moment of silence

The image shows a lush green valley. In the foreground, there is a field of tall grass with some yellow wildflowers. In the middle ground, a small white house with a dark roof and a red chimney sits on a grassy slope. The background is filled with dense green forests covering rolling hills, with a light mist or fog hanging in the air above the trees.
